Mean			20.9	51.9
CV (%)			23.4^a	4.2
LSD (5%)			6.9	3.3

* Experimental wheat breeding line

**Barley variety used as a standard check in South Texas.

^aTrials with a coefficient of variation (CV) \geq 15% contain excessive experimental error.

Readers should consider trials in a similar environment to confirm varietal effect on yields.
