2026 CERTIFIED SEED DIRECTORY

TEXAS DEPARTMENT OF AGRICULTURE COMMISSIONER SID MILLER
P.O. Box 12847 • Austin, Texas • (512) 463-7476 • www.TexasAgriculture.gov
For the hearing impaired: 1-800-735-2988 (voice) or 1-800-735-2989 (TDD/TT)

ABOUT THE DIRECTORY

The list of growers include those who have made application for inspection under the seed certification program. The majority of these growers have had several years of experience in the production of seed under the certification program. In addition to field inspection, all Foundation, Registered, and Certified seed must also meet the requirement for other varieties and/or off types. Seed is not of the Foundation, Registered, or Certified class unless the official label is attached to the container. All Foundation, Registered, or Certified seed must be labeled in compliance with all provisions of the Texas Seed Law. Orders for Foundation, Registered, and Certified seed, therefore, can be accepted by the listed growers only with the understanding that they will be filled when the Foundation, Registered or Certified requirements are completed. Inquiries or orders should be sent directly to the growers or seed dealers.

HOW TO USE THE DIRECTORY

C = Certified R = Registered F = Foundation
S = Selected B = Breeder

IMPORTANT NOTICE

All Foundation seed is labeled with a label printed on white background, all Registered seed is labeled with a label printed on a purple background and all Certified seed is labeled with a label printed on a blue background. In addition to the information as to the variety and the name of the producer, all labels bear the imprint of the state seal of Texas. ONLY SUCH LABELS ARE OFFICIAL. All Foundation, Registered, and Certified seed must be packed in new even weight containers and each container shall be labeled in accordance with the TEXAS SEED LAW. The Registered class of small grains and rice and the Certified class of any crop kind may be sold in bulk, provided the identity of the seed is carefully maintained, the seed is handled in a manner which prevents a mixture and a bulk certificate accompany the movement of seed.
